Commercial Gamblers!

All over the country, every community has known the Faker who started with flourish of trumpet, indeed the brass band, for years was a necessary adjunct. We had been taught to believe that men could not succeed who built their business on falsehood and fraud, but we have all seen that financial success at least is possible. Perhaps has been possible is the better way to put it. We have faith to believe that the public conscience has been aroused to such an extent that it will never again be possible for men to succeed who are-"void of all honor, avaricious, rash"-nor can "the daring tribe henceforth exploit their boasted trash." There are still a few left of course that the head line fits-but they are not getting very far-the people are wiser now. We are obliged to those who have commended and congratulated us on our stand for honest merchandising. One of those who wrote us recently hit the nail squarely on the head when he said; "The faker and schemer must go, and his time is short." Thanks for your encouragement brother. We are strong-we mean to keep it up-and we have already won.
